

## Procurement of automatic Frequency Restoration Reserve (aFRR) in the first half-year 2017

The Nordic TSOs have decided to procure a total volume up to 300 MW during weekdays (Monday to Friday) in the first half-year 2017. The TSOs will procure aFRR in the morning and evening hours where the frequency variations are most challenging.

The procurement will contain following hours:

- week 1, no procurement
- week 2-4, morning hours 5:00-8:00 (CET), no evening hours
- week 5-8, morning hours 5:00-8:00 (CET), evening hours 16:00-18:00 (CET)
- week 9-13, morning hours 5:00-8:00 (CET), evening hours 17:00-19:00 (CET)
- week 14-22, morning hours 5:00-8:00 (CET), evening hours 22:00-24:00 (CET)
- week 23-25, morning hours 5:00-8:00 (CET), no evening hours

Information about the procurement for the rest of year 2017 will follow later.
