**REPowerEU**

**Joint European action  
for more affordable,  
secure and sustainable  
energy**

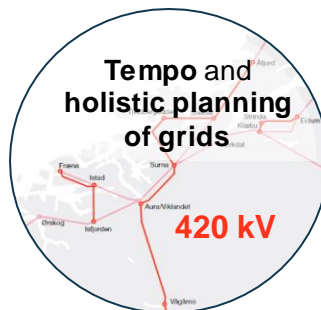

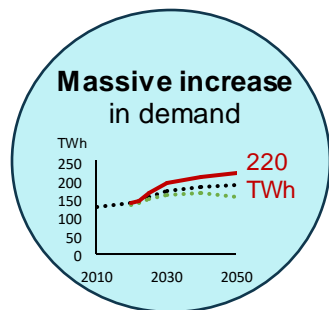

European Union, 2020

# The **Green** Change of Pace

Statnett will facilitate sustainable value creation and the transition to an energy system for the zero-emission society.

Statnett will ensure secure operations and a cost-efficient power supply by continuing to develop the grid, market and operating solution

## Safety and Sustainability in all we do

2030 is today  
2050 is tomorrow

# Innovation

# Digital and automation required

# Collaboration

# Sustainability

# Statnett's Values

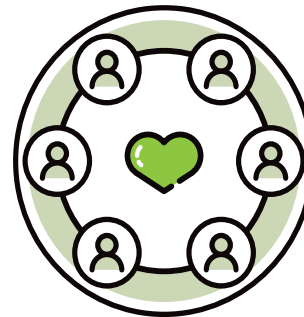

## We deliver

- efficiently on priority tasks
- the right quality at the right time
- all the way

## We have courage

- to prioritize and simplify
- to trust each other
- to innovate

## We do it together

- for successful teamwork
- to build relationships
- and share with each other

*Industrialization  
Production  
Grid*
