## Procurement of automatic Frequency Restoration Reserve (aFRR) in Q1/2020 (weeks 2-13)

The Nordic TSOs have decided to further increase the procurement of aFRR in Q1 2020 by expanding the number of procurement hours per week from 69 to 84. The total volume will be varied with approx. 300 MW in most hours and approx. 400 MW in morning hours. The basis for the procurement is the agreed goal for frequency quality level and the TSOs will continue to procure aFRR in the morning and evening hours as well as the dayshift hours where the system balancing is most challenging.

The procurement schedule until week 01 2020 will follow the earlier published information.

Starting from Monday 06 January 2020, aFRR will be procured in the following hours in Central European Time (CET):

Monday:	00:00-01:00, 05:00-09:00, 15:00-00:00	(14 h)
Tuesday:	00:00-01:00, 05:00-09:00, 15:00-00:00	(14 h)
Wednesday:	00:00-01:00, 05:00-09:00, 15:00-00:00	(14 h)
Thursday:	00:00-01:00, 05:00-09:00, 15:00-00:00	(14 h)
Friday:	00:00-01:00, 05:00-09:00, 15:00-00:00	(14 h)
Saturday:	00:00-01:00 18:00-00:00	(7 h)
Sunday:	00:00-01:00 18:00-00:00	(7 h)

A new evaluation will be done for each quarter of the year and information about the procurement for Q2/2020 will follow in March.
